TEXSTAR

STØRRELSESGUIDE

Texstar tilbyr flere størrelser og ulike passformer for å gjøre det enklere å finne riktig størrelse. For jakker, gensere og lignende plagg anbefaler Texstar å sammenligne målene dine med størrelsestabellene. Bukser oppgis i tommer, og Texstar tilbyr flere passformer for samme størrelse.

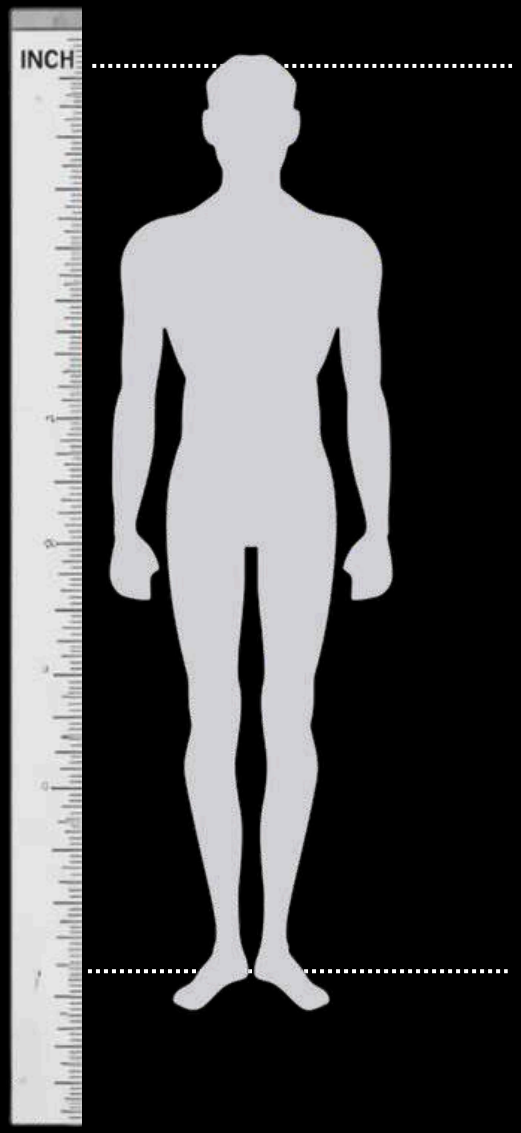

SLIK MÅLER DU

01 **Bryst:** Mål rundt den bredeste delen av brystet

02 **Midje:** Mål rundt midjen der du vanligvis bruker jeans eller bukser. Dersom du bruker bukser med lav eller høy midje, måler du tilsvarende høyere eller lavere.

03 **Hofte:** Mål rundt den bredeste delen av hoftene

04 **Innerbenslengde:** Mål langs innsiden av benet, fra skrittet og ned til bunnen av benet. Du kan også måle en bukse som allerede passer godt.

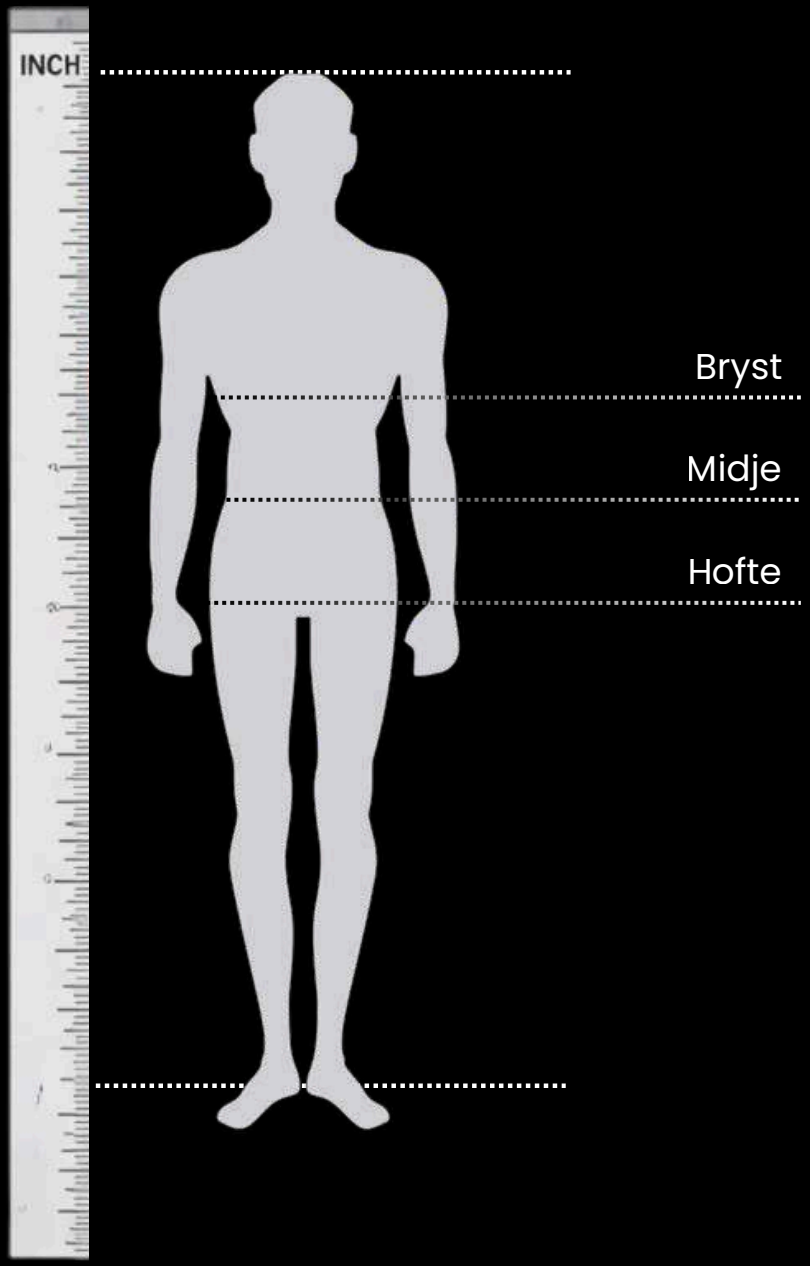

TIPS FOR BUKSESTØRRELSER

Texstar-bukser bruker to mål oppgitt i tommer, for eksempel 30/32:

- Første tall = midjemål
- Andre tall = benlengde

TEXSTAR

SIZE GUIDE

Texstar offers several size options and different fits to help you find the right fit for workwear. For jackets, sweaters and similar garments, Texstar recommends comparing your measurements with the size tables. Trousers are sized in inches, with different fits available for each size.

HOW TO MEASURE

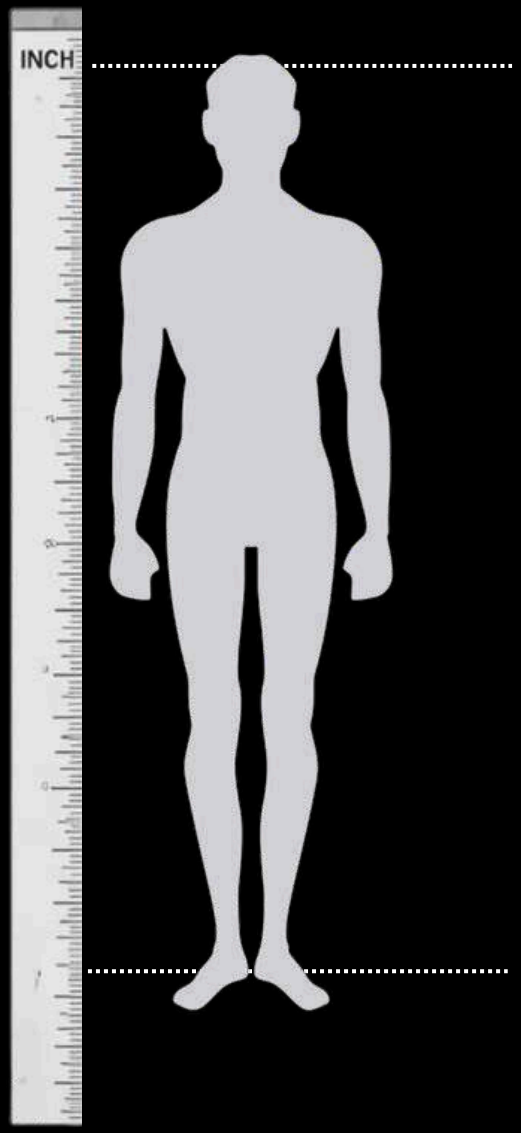

Use your body measurements, rather than measuring an existing garment

01 **Chest:** Measure around the fullest part of your chest.

02 **Waist:** Measure around your waist at the height where you normally wear your jeans or trousers. If you wear low-waisted or high-waisted trousers, adjust the measuring point accordingly.

03 **Seat:** Measure around the fullest part of your hips/seat.

04 **Inseam:** Measure along the inside of the leg, from the crotch to the bottom of the leg. You can also measure a pair of trousers that already fits you well.

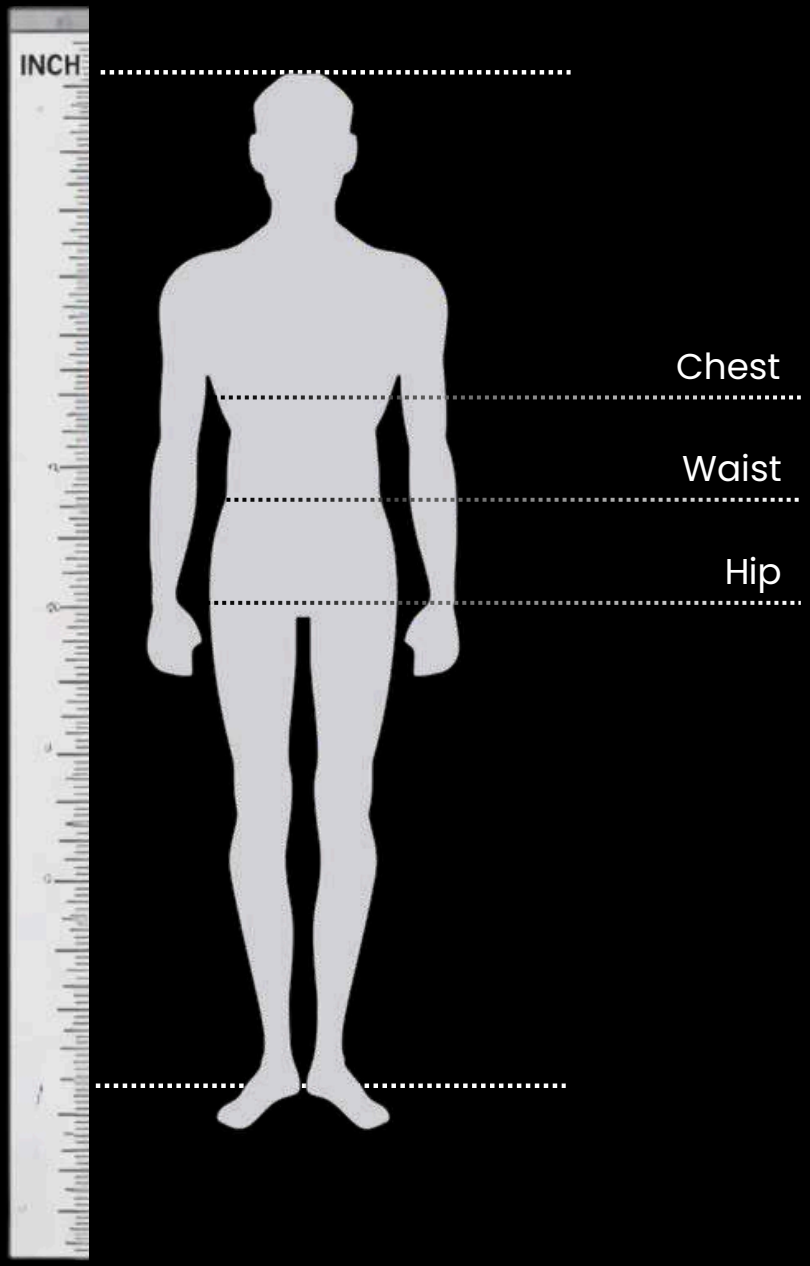

TIP FOR TROUSER SIZES

Texstar trousers use two measurements in inches, for example 30/32:

- The first number = waist size
- The second number = trouser length
